PROFESSIONAL SUMMARY

Informatics graduate from Universitas AMIKOM Yogyakarta with a strong focus on UI/UX Design and a proven strong portfolio. Experienced in user research, wireframing, prototyping, and usability testing to create intuitive and user-centered designs. Strong in problem-solving, translating complex ideas into clear design solutions, and collaborating effectively with cross-functional teams. Passionate about creating user-centered products that are both functional and visually engaging.

EXPERIENCE

UI/UX Designer Intern – Kreasitech (Aug 2025 – Mar 2026)

HiSales

A web-based Sales Intelligence and Automation platform that automates prospect data collection (scraping), streamlines lead management, and enables integrated outreach via WhatsApp and Email.

- Designed UI/UX for a web-based Sales Intelligence platform (HiSales) to support sales teams and management.
- Created user flows, wireframes, and high-fidelity designs for dashboards, data management, and follow-up systems.
- Structured navigation and visual hierarchy for data-heavy dashboards.
- Collaborated closely with developers to ensure feasible and accurate implementation.

IDAS SFA

A mobile Sales Force Automation (SFA) application designed to support field operations by integrating sales, delivery, and billing processes into a single system.

- Designed mobile UI/UX to support Salesman, Driver, and Collector workflows.
- Developed user flows and information architecture for order taking, delivery, and collection processes.
- Implemented input validation designs to reduce errors during operational activities.

UI/UX Designer Intern – Seven Inc (Feb 2024 – Jun 2024)

Buzzer

A mobile application that enables social media users to purchase promotional and advertising services, as well as generate income by working as buzzers. The platform supports three distinct user roles within the system.

- Produced 50+ wireframes, mockups, and interactive prototypes using Figma.
- Conducted usability testing and analyzed user feedback for iterative design improvements.
- Performed user surveys and behavioral analysis to translate insights into design solutions.

EDUCATION

Bachelor of Informatics – Universitas AMIKOM Yogyakarta (Aug 2022 – Mar 2026) GPA: 3.74 /4.00

- Skills UI/UX: User Research, User Flow, Wireframing, Prototyping, Usability Testing, Information Architecture.
- Tools: Figma, Adobe XD, Maze, Canva, Microsoft Office, Google Workspace.
